For over 15 years, the Westpol-Teeuwissen as a leading natural casings producer, offers their customers a broad range of animal by-products. Specializing in pork, but not limited to. Moreover, in our advanced pharmaceutical unit we produce derivative of heparin. From the very beginning of our operation, we believe that we must act with slaughterhouses as a one, because that is the only way to allow us to retain distinctive nature of production process.

OBTAINING  
RAW MATERIAL

SELECTING AND  
CALIBRATION

FREEZING  
AND PACKING

SALES  
AND LOGISTIC

The quality and safety is our priority, which is why we are certified with ISO 22000:2005 and strictly respect our HACCP control system. Our brand new rapid freezing rooms in large quantity additionally ensure the safety and quality of our products.
